SCOOP ILLUSTRATION of WORONI artificial satellite which will not be launched at the Far Eastern Ball on Saturday night. (A.U.P.)

FINDER SEND TO "WORONI" FOR RELAUNCHING

Editorial

As it is a bore writing an editorial
 and a long time since you had some of our verse
 we now offer an Ode to the Escorial
 a commemorative stamp to the Australian Warmer Morial
 Or worse:

That Masterman must go
 we all know
 though we may have some doubts
 who should be the ins and outs
 - still Queensland's late election
 puts a premium on defection
 (when in labour) for the libs.
 And we trust that no-one jibs
 at our saying we're as liberal as they
 For if labour means maternity
 Then Lib. implies maternity
 and every male's a liberal, potent-
 ial or eventual, which rather
 supports the Liberal legend of the GREAT WHITE FATHER.....

Uncle Bob'
 s on the job
 and the world's O.K.

J.

.....

REVIEW: QUADRANT 3

As with Quadrant 2, the editorial comment reflects Quadrant's political bias. Now we are not even to be sceptical about Crown, Parliament, Common Law, Courts, or any Right-wing activities. But at least this editorial is more closely reasoned and makes more valid points, and the passage on Universities is clear and important.

Again, too the text is in general first-class. You should read A.D.Hone's "Meditation on a Bone", George Baker's "Canberra Dateline", Clive Sansom's "Lady Chanel", and, for last year's Ultras, a highly significant article ("Youse and Non-Youse") discussing the Australian application of Nancy Mitford's U and Non-U. This analysis, penetrating and scholarly, will be far more acceptable to Australians than anything yet published in its field.

Quadrant—at least Quadrants 1 and 3—is a publication we welcome despite its doubtful political leanings. Handy in form, well set up, readable but not rubbishy, it falls in the wide gap between Meanjin and the Readers' Digest: hardly rather nearer Meanjin. In some ways it takes over the function of the unfortunately defunct Voice.

Quadrant will, with your cooperation, be left in the Common Room. Try to read it.

TONS OF MONEY BOOK **NOW!**

KING IN CANBERRA

A week ago Peter King, President of Melbourne S.R.C., arrived in Canberra on a tour of East Coast Universities. John Carroll and I took him round Canberra, the A.N.U. and the College and discussed local student affairs. He was most impressed with the College in general and especially the academic staff, but he was concerned at the lack of political parties in the University.

Peter was vigorously plugging both NUAUS and the Australian Student Labor Federation. He felt that Canberra students, being in the seat of government, could make especially valuable contributions to both these bodies. We were not entirely convinced of the value of this to us, but we will be in further contact with Peter on both issues. As a first step, any University Radicals who might form a Labor or Leftist Club?

Dear Sir,

I wish to protest in the strongest terms against the recent practice of your purported newspaper of taking the names of the leading personalities of the C.U.C. and mocking both them and our revered legal system. A scurrilous article, masquerading as a report of proceedings in the C.U.C. Court of Pretty Sessions, has brought our local courts within the ambit of common ridicule, and has jeopardized the good names of those burlesqued. Let this deplorable lapse(?) from good taste not occur again!

Henry Parsley Ch....b....r,

of Cheeseburgher, Cheeseburger & Cheeseburgher, Manuka.

P.S.: Why not a compromise? Black Mountain for scooters and billy-carts, Red Hill for billy-carts and scooters, or vice versa.

The Editor-in-Chief, Woroni:

I should like to write a serious letter to your publication. Some day I shall do it.

Yours with love,
William E. Plunk, Bart..
